

# Journey of Success

## Aboriginal Education Strategy 2019 - 2029

Aboriginal children develop foundations for success in the early years.

### 10-year goals

Aboriginal children's cognitive, emotional, social and communication skills and overall health and wellbeing, support them to succeed.

Aboriginal children and young people excel at school.

Aboriginal children meet or exceed the same standards of achievement for literacy and numeracy as non-Aboriginal students.

Aboriginal young people are on pathways to success.

All Aboriginal students achieve their SACE or vocational education qualification at the same rate as non-Aboriginal students.

This artwork represents that the journey of success for a young Aboriginal person is shaped by a solid foundation in learning and development.

Commencing at the bottom left corner, the first meeting place represents the baby being born and the antenatal and early childhood care provided to the mother and family.

The journey then continues along the pathway to the next meeting place, which represents preschool entry.

Subsequent meeting places depict learning, meeting teachers and friends along the way, represented by the dots, and reaching a culmination point represented by the next meeting place before continuing on the journey.

The meeting places outside of the pathway represent families and their support of learning and development.

The patchwork background represents the many different communities that students come from, with the blue representing coastal and the earth brown representing inland.

The artwork gradient gradually gets lighter and culminates with the bright yellow star and sun symbol in the top right of the artwork, depicting the successful outcome of going to preschool and school.
